

OGBU E. KELECHI

Full-Stack Developer

Phone: +234-8038-450-510 | Email: mazikc.dev@gmail.com | Portfolio: <https://kcee.dev> |
GitHub: <https://github.com/lordkcee>

PROFESSIONAL SUMMARY

Full-Stack Developer specializing in MERN, Next.js, TypeScript, and PostgreSQL. Experienced in building scalable web applications, payment integrations, and production-ready APIs. Strong focus on clean architecture, performance optimization, and responsive user experiences.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, HTML5, CSS3
- **Frontend:** React, Next.js, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs
- **Databases & ORM:** PostgreSQL, MongoDB, Prisma ORM
- **Tools & Platforms:** Git, GitHub, Stripe API, Cloudinary, Inngest, Vercel

PROFESSIONAL EXPERIENCE

Remote Full-Stack Developer | Enugu, Nigeria | 2022 – Present

Project

ResultLog — Academic Tracking Application

Tech Stack: React, Tailwind CSS, Express.js, Node.js, PostgreSQL, Prisma ORM,

- **Frontend Architecture:** Engineered a responsive, highly interactive academic dashboard using **React**, enabling students to log scores, calculate real-time GPAs, and visualize academic performance trends through dynamic UI components.
- **Database Design:** Designed and optimized a robust relational database schema using **PostgreSQL** and **Prisma ORM** to handle complex data relationships between students, semesters, courses, and continuous assessments.
- **Performance Tuning:** Implemented efficient database indexing and optimized relational queries to achieve sub-second data retrieval times for multi-user academic reports.
- **State & Data Integrity:** Utilized strict data validation rules on the backend and structured state management on the client side to ensure seamless, error-free grade calculations and updates.

Web Development Tutor & Instructor – Ejeh Info Tech | Abuja, Nigeria | 2023 – 2024

- Delivered structured lessons on HTML5, CSS3, and modern JavaScript (ES6+).
- Guided beginner developers through hands-on projects and debugging sessions.
- Explained core frontend concepts including DOM manipulation, asynchronous JavaScript, and responsive layouts.
- Mentored students on Git/GitHub workflows and best coding practices.

PROJECTS

Gocart E-Commerce Platform | Live Demo: <https://gocart.kcee.dev> | GitHub: <https://github.com/Lordkcee/gocart> Developed a scalable multi-vendor e-commerce application.

Tech Stack: Next.js, TypeScript, Prisma ORM, PostgreSQL, Stripe API, Cloudinary, Inngest

- Implemented authentication, vendor dashboards, order management, and Stripe payments.
- Reduced initial page load time by implementing server-side rendering and image optimization.

ResultLog Academic Tracking Application | Live Demo: <https://resultlog.kcee.dev> | GitHub: <https://github.com/Lordkcee/resultlog> Developed a responsive, student-centric academic tracking dashboard.

Tech Stack: React, Node.js, Express, Prisma ORM, PostgreSQL, Tailwind CSS

- Implemented student authentication, multi-semester course logging, and a real-time GPA calculation engine.
- Optimized data retrieval times by modeling a structured relational database schema for complex academic records.

EDUCATION

University of Nigeria | B.Sc. Biochemistry | 2023 – 2027
